HABC Message: Federal Government Shutdown

JANUARY 10, 2019, UPDATE

Funding could be delayed due to the federal government shutdown.

Throughout the duration of a government shutdown, landlords and property owners are not allowed to seek payment from a resident for the HAP portion and cannot initiate eviction for nonpayment as the cause.

HABC will inform elected officials and community leaders on how the government shutdown affects funding and the services we provide to our Bexar County residents and business partners. We will continue to keep residents and landlords informed of the latest information on this very serious matter.

We hope for a quick resolution and thank you in advance for your understanding.
